Finish On Lure Race Meetings

The following upcoming meetings will be scheduled as Finish On Lure meetings:

- Wednesday 6 November
- Wednesday 20 November

Qualifying Trials will remain as Catching Pen finishes.

YOUNG STARS FEATURE RACE CHANGE DUE TO CANNINGTON WORKS DELAY

The Young Stars has already been moved to a later date in November with the hope that it could be run at Cannington. With the latest delay to the Cannington project and to avoid clashes with upcoming feature races the series will be now run at Mandurah over 488m.

The new dates will be heats on Friday 15 November with the final on Friday November 22.

CHANGE TO CANNING SHOW CUP FIELD SELECTION CONDITIONS

Currently the Canning Show Cup is scheduled for Saturday November 30. This is a one-off 600m final for City Middle Distance Grade greyhounds. With no Middle Distance grade races being run during the Cannington track work period it has been decided that the conditions of the race will be changed. The field will now be selected by a Grading Panel.

QUALIFYING TRIAL CHANGES

The minimum field size for Qualifying Trials has been changed back to 3. The decision to move away from the current minimum of 1 is to ensure that young greyhounds have experienced running with other greyhounds under race night conditions before they enter Maiden company. The change back to a minimum field size of 3 will start from November 19 onwards.

SURGICAL ARTIFICIAL INSEMINATION PHASE OUT

9 September 2024

Greyhounds Australasia advises that the Board and Regulators have resolved to cease the practice of Surgical Artificial Insemination (SAI) in greyhounds from 1 January 2026.

In accordance with the Australian Veterinarian Association (AVA) policy on canine SAI, the veterinary industry needs to progress to alternative methods such as the adoption of Transcervical Insemination (TCI).

Recent communication from veterinary regulators acknowledged that the practice of SAI is “no longer in accordance with current standards of veterinary practice” it also recognizes that a transition period to TCI is entirely appropriate.

The transition period (to 1 January 2026) will assist in ensuring veterinarians who service the greyhound industry have the training, knowledge and expertise in the practice of TCI.

During the transition period GA will engage with veterinary reproductive practitioners, seeking to provide educational support and information to greyhound breeders and owners.

At this stage, the minimum standards for Frozen Semen (FS) as prescribed by the GA Rules, remain unchanged at a minimum of 100 million motile sperm per breeding unit, in keeping with international standards.

Over the coming months GA will engage with veterinarians, stud master and breeders to collate and review service data as the transition to TCI progresses. GA will also work with industry and regulatory veterinarians to develop best practice guidelines.

Has not raced since October 2023 due to injury.

Has been downgraded to a Country Sprint Grade 5 (1 to drop).

RWWA STEWARDS - NOTICE TO TRAINERS

GASTROINTESTINAL ILLNESS

IN GREYHOUNDS

RWWA Stewards remind trainers that infectious gastrointestinal illness affecting greyhounds occurs sporadically throughout the year, however, is often most prevalent during the summer months in Western Australia.

prompt advice from a veterinarian on the management and treatment of affected greyhounds. Your veterinarian may recommend and carry out some laboratory tests to determine the underlying cause, which is best practice and assists your veterinarian to recommend the most appropriate treatment.

Trainers are reminded not to present any greyhound showing signs of illness to any racing venue and further to isolate any greyhound with signs of gastrointestinal illness from any unaffected greyhounds.

Trainers must report any suspected or confirmed cases of viral gastrointestinal illness, including but not limited to Canine Coronavirus, to the Greyhound Stewards.

Pathogens that cause infectious gastrointestinal illness are easily spread via faeces and saliva and maintaining good biosecurity and hygiene practices is essential to managing any suspected infectious disease in the kennel environment, which includes;

- Isolating affected greyhounds from other greyhounds in the kennels.
- Disinfecting kennels, food and water bowls etc. with bleach or pine disinfectant.
- Ensuring staff attending to affected greyhounds disinfect hands, clothing and shoes as appropriate and prevent any unnecessary contact with unaffected greyhounds.
- All movement of greyhounds into and out of affected kennels should be restricted where possible to minimise the spread of illness.

Further information regarding isolation housing for greyhounds and hygiene techniques to prevent spread of disease can be found in the RWWA Code of Practice for the Keeping of Racing Greyhounds

NOTICE TO INDUSTRY

EAR TATTOOING TO CEASE

AS OF 1 NOVEMBER 2024

The Greyhounds Australasia (GA) Board has determined that by 1 November 2024 the requirement for ear tattooing of registered greyhounds will cease.

This change will see all greyhound racing jurisdictions in Australia, including Western Australia, move to microchipping as the primary method of identification.

This decision has been made following a review of methods of greyhound identification by a GA working group and subsequent consultation between controlling bodies. It is noted that Greyhound Racing New Zealand had ceased ear tattooing in late 2022.

The microchipping of all greyhounds has been demonstrated to be a reliable and effective means by which to identify and track greyhounds. Western Australia has also retained a codified system to record greyhound markings which will serve as a secondary means of identification until such time as other alternative technologies, such as nose print technology become available.

Several Rule amendments are being made to facilitate the transition from mandatory ear-tattooing.

Accordingly, greyhounds whelped after the 1 November 2024 will not be ear tattooed with all other requirements remaining unchanged. (NB – to ensure consistency as we transition to the new arrangements, pups whelped prior to the 1 November will be subject to the standard processes).

These changes reflect the industry-wide commitment towards the best possible standards of greyhound welfare.

Although it will be approximately 2-years before these pups commence to race, in the statistically unlikely event that any greyhound presented in Western Australia for an Event cannot have its microchip scanned, then it will be withdrawn until such time as its identity can be confirmed by reference to DNA analysis and other means.

There is a discretion retained within the rules for Stewards to rely on an alternative means of identification, such as a high level of distinct markings, if the microchip cannot be scanned for any reason. Reliance on markings alone will rarely be sufficient given the commonality of markings and colours of greyhounds and therefore to ensure the integrity of racing, unless entirely satisfied as to the correct identity of any greyhound, it will not be permitted to compete.

CESSATION OF EAR TATTOOING

FREQUENTLY ASKED QUESTIONS

From 1 November 2024, ear-tattooing greyhounds will cease Australia-wide. For greyhounds whelped from this date, the microchip will become the primary method of identification.

When will ear-tattooing cease?

Ear-tattooing will cease for litters whelped on or after 1 November 2024. Litters whelped prior to this date will have an ear-tattoo applied.

Why are we ceasing ear-tattooing?

Microchipping of all greyhounds has been demonstrated to be a reliable and effective means by which to identify and track greyhounds. This, coupled with the continued advancement of technology to aid identification, has enabled the removal of ear-tattooing and highlights the industry-wide commitment to drive the best possible standards of greyhound welfare.

What methods will be used for the identification of greyhounds?

The microchip will remain the primary identifier for all registered greyhounds.

It is noted that with the removal of a VISUAL identifier, participants will be responsible for identifying the greyhound via scanning the microchip, for all movements and transactions related to the greyhound e.g., entering/leaving kennels, confirmation for naming, transfers etc. It is strongly recommended that participants invest in a scanner to facilitate identification of greyhounds in their care, if they have not already done so.

Nose Print Recognition technology is currently being investigated as a secondary option, however, is not available in WA at this stage.

Will there be any change to the litter registration process?

Aside from the removal of the requirement for Greyhound Stewards to ear-tattoo puppies, there will be no change to the overall process. Greyhound Stewards will still attend the premises to assess the litter, scan the microchip, and document each individual puppy's markings for their record.

Please note each greyhound will still be given a Unique ID code (formerly ear-tattoo ID) for reference purposes.

What happens if the microchip is unable to be found/unreadable?

In the unlikely event that the microchip cannot be found/is unreadable, the following will be enacted, relevant to circumstances:

For greyhounds with an ear-tattoo

As there is a secondary, visual identifier, the greyhound will be permitted to race/trial, however, a new microchip will be required to be inserted and a Notification of Faulty/Lost Microchip form must be completed to facilitate this.

For greyhounds with microchip only

Prior to racing or trialling

Participant is to notify Racing Services to complete a Notification of Faulty/Lost Microchip form. The greyhound must not be removed from the premises or have any transactions (naming, transfer etc) until it has been suitably identified.

Race or trialling day

If a microchip is unable to be scanned on race day, and the greyhound cannot be identified through secondary process to the satisfaction of the Greyhound Stewards, the greyhound will be scratched from the race meeting and stood down until such time as the greyhound can be suitably identified.

The Greyhound Stewards will then commence necessary action required to correctly identify the greyhound, at their discretion, including but not limited to:

- Assessment against markings on record,
- DNA profiling to confirm parentage,
- Kennel records, and,
- Nose Print Recognition (if/when available)

Once identified, the greyhound will have a new microchip inserted.

Please note that the stand-down period for unreadable microchips may be 6 - 10 weeks. It is imperative that participants regularly scan their greyhounds for identification purposes.

Greyhounds will be scanned by Racing WA Stewards prior to competing in Qualifying Trials.

Should you require any further information or have additional queries please don't hesitate to contact Racing WA's Racing Services team on 9445 5558 or licreginfo@rwwa.com.au.

Further individual notices in relation to these amendments will be issued and loaded into the RWWA website in due course.

GREYHOUND INJURY FULL RECOVERY SCHEME (GIFRS)

The GIFRS was discontinued on 1 February 2024, however greyhounds that entered the scheme prior to this date may continue to have updates to their rehabilitation and rehoming status and will therefore continue to be reported. Under GIFRS, the ownership of a greyhound that sustained an eligible injury at a race meeting or official trial was transferred to RWWA's Greyhounds as Pets (GAP) program, following which the injured greyhound was transported to emergency care and all associated costs of surgery and rehabilitation covered by RWWA. If suitable, the greyhound is then rehomed post recovery through GAP's standard processes.

GREYHOUNDS MAKE GREYT PETS

Greyhounds are gentle, sweet natured dogs who really enjoy human companionship. Despite their athletic abilities they only need one or two 20-minute walks per day and spend an average of 20 hours sleeping!

NOTES

RACING IN WESTERN AUSTRALIA IS A THRIVING COMMUNITY

At its heart are the wonderful racehorses and greyhounds that bring it to life.

Sheer excitement and enjoyment aside, there is one overriding reason why about 24,500 people are part of the Western Australian racing world.

Animals are everything to us.

We respect and advocate for the animals of the industry, with constantly evolving welfare standards and regulations to protect their wellbeing.

We are passionate people. We are dog people. We are horse people.
