

## APPLICATION FOR RE-INSTATEMENT OF A RETIRED RACEHORSE

*Please tick where applicable ✓*

Harness

Thoroughbred

**IMPORTANT INFORMATION**

- Acceptance of the application does not guarantee the horse will be re-instated. Horse history, including prior ownership, will be investigated by Racing Services (Registrations) and Stewards prior to any decision being made.
- Any Ownership transfers and/or Lease registration must be processed in the usual manner prior to the horse being re-instated to race or trial.
- A Veterinary Clearance (Section Two) must be completed for all applications where it is requested to reinstate the horse for racing.
- **If an application for re-instatement to racing is successful, the horse will be reinstated on the condition that an embargo will be placed on the horse thereby not permitting it to start in a race until such time as it has completed a satisfactory trial and undergone a post-trial veterinary inspection by the on-course veterinarian.**

Please return completed forms to [licreginfo@rwwa.com.au](mailto:licreginfo@rwwa.com.au)  
*Incomplete or illegible documentation will delay processing.*

### SECTION THREE – PERMISSION TO BE RE-INSTATED FROM RETIREMENT (WHERE APPLICABLE)

Where the managing owner at the time of official retirement of the horse is not the same as the person who is making the application to re-instate the retired racehorse, permission to re-instate the horse must be granted by the owner who initially retired the horse.

**Previous Owner Declaration**

I, as the managing owner at the time the horse described in *Section One – Horse Particulars* was officially retired from racing, hereby declare that I have no objection to this horse to being re-instated to continue racing.
